

SHAIK HEENA KOUSAR

+91 9346473430 — ♦ Undergraduate class of 2027 — ♦ VIT AP UNIVERSITY

heenakousarshaik88@gmail.com — ♦ www.linkedin.com/in/heena-kousar-shaik

OBJECTIVE

- Enthusiastic and tech-driven student with project experience in web development, computer vision, and IoT systems. Passionate about data science and skilled in Python, machine learning, and data analysis. Seeking opportunities to apply and expand my skills in software development and data-driven problem solving within a forward-thinking organization.

EDUCATION

Degree	Specialization	Institute	Year	CPI
B-Tech	CSE (Core)	VIT-AP	2023– Present	9.07
Higher Secondary	AP State Board	Royal Junior college	2023	98.7%
Secondary	AP State Board	ZPHS Medarametla	2021	97.5%

EXPERIENCE

• Data Science Intern

Cognifyz Technologies May 2025 – July 2025

Ref: CTI/A1/C138498

Gained practical experience in data analysis, visualization, and machine learning model development.

Worked on real-world datasets to extract insights and support data-driven decisions using Python, Pandas, and visualization tools.

PROJECTS

• CAT Vs DOG Image classification- Black Bucks Project May 2025 – June 2025

Programming Language: Python

GitHub link: <https://github.com/Heena1-3/Cat-vs-Dog-classification>

Built a deep learning model with TensorFlow/Keras to classify cat and dog images. Applied preprocessing, augmentation, and dropout to enhance accuracy and prevent overfitting. Evaluated using accuracy, precision, recall, and confusion matrix.

• Key2Stay-Hotel Management Website Jan 2025- March 2025

Developed a responsive hotel booking website using HTML, CSS, JavaScript, and MySQL. Implemented a secure login system and showcased hotels across 4 cities with room availability, menus, and booking features. Focused on user-friendly interface and database integration for real-time updates.

• Early flood detection system July 2024- December 2024

Engineering Clinics Project | Grade: S

Designed an IoT-based system using water level sensors and microcontrollers to detect flood risks and send real-time alerts. Achieved Super Grade (S) for innovation and practical impact

CERTIFICATIONS & PARTICIPATIONS

- **Data Visualization**— Infosys Springboard 6.0(**Certified**) (May 2025)
Completed a series of courses focused on data visualization techniques and tools. Gained practical knowledge in creating insightful visualizations using charts, dashboards, and storytelling principles. Covered key topics including data interpretation, design best practices, and tools like Excel and Power BI
- **Blackbucks** – Data Science and Business Analytics (Certified) (June 2025)
Completed an industry-oriented certification course covering key concepts in data science and business analytics. Gained hands-on experience in data preprocessing, statistical analysis, machine learning, and business insights using tools like Python, Excel, and SQL.

TECHNICAL SKILLS

- **Languages:** Java, C, C++, SQL, DSA
- **Tools:** GitHub, VS Code, Jupyter Notebook
